

# Poly Jars

A range of High Density Polyethylene (HDPE) and Polypropylene (PP) jars is stocked in capacities from 35ml up to 1.25 litre. They are supplied in white pigmentation and some are available with tamper evident lids with tear off bands as an alternative to a standard screw on lid.

Certain sizes are  approved for the carriage and storage of solid products such as pastes and powders.

***For more information on the above products please contact our sales office on 01684 299212.***
