

Tight Head Plastic Drums

Available from stock is a wide range of (H) certified poly drums in capacities from 15 litre up to 210 litre.

The range covers both euro and square round configuration in natural, white, blue, and black pigmentation. Various closures are available and these include tamper evident screw necks and Trisure bungs, we can also offer vented caps on certain sizes.

The (H) specification covers both (H) group 1 and 2 usages.

Patrico also offer a range of drum taps and pumps if required.

For more information on the above products please contact our sales office on 01684 299212.
