

Tight Head Steel Drums

Patrico stock a full range of tinsplate and steel drums in capacities from 1 litre to 210 litre.

Tinsplate drums are available in 20 litre and 25 litre capacities. They are supplied in a variety of external colours and can have either plain or lacquered interiors. Both are available with either 59mm or 78mm screw caps and are approved to H group 2 for the storage and carriage of liquids.

Steel drums are available from 1 litre to 210 litre with a variety of external colours and either plain or lacquered interiors. All have 2" Trisure closures (see picture opposite) fitted in the head, with some sizes also fitted with an additional $\frac{3}{4}$ " Trisure closure. All sizes can be supplied with group 1 and 2 H approval for liquids.

Polylined steel drums are available in 25 litre, 30 litre, and 210 litre capacities with 2" Trisure closures, and are H group 1 certified.

Stainless steel drums are supplied to order in capacities from 20 litre to 210 litre.
