

# Tinplate Screw Neck Cans

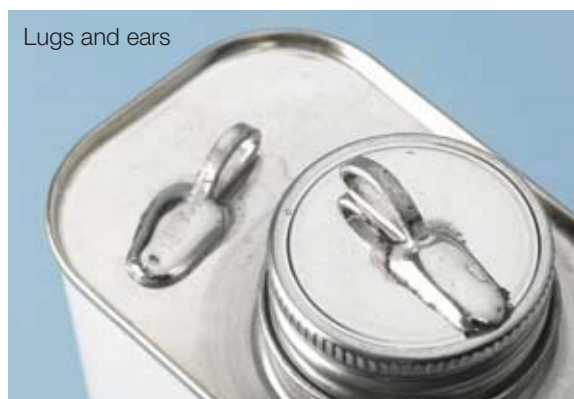

Rectangular tins, commonly known as oblong cans, are supplied from stock in 125ml, 250ml, 500ml, 1 litre, 2.5 litre, and 5 litre capacities. These are available with both a white or red external finish and a plain or lacquered internal finish. All cans except the 125ml are  approved to group 2 for the carriage and storage of liquids. Metal screw caps and seals are available on all sizes, with the 5 litre having a choice of 38mm or 59mm. We can also offer polycone caps on the 1 litre, 2.5 litre, and 5 litre sizes.

The 1 litre, 2.5 litre, and 5 litre sizes are available with lugs and ears (see picture opposite) soldered on to the neck of the can which gives the facility for both security and identification where required.

Round tins, commonly known as cone tops, are available in 125ml, 250ml, 500ml, and 1 litre sizes all with plain external and plain or lacquered internal finishes. Metal screw caps and seals are available on all sizes with polycone caps available in 250ml, 500ml, and 1 litre sizes.
